effort to coordinate the process of reviewing and producing responsive materials and information with their ongoing efforts to respond to requests for additional information under the Hart-Scott-Rodino Act. The Applicants also described their plan to respond to the requests in a focused manner, so as to provide the Commission with the information required for it to reach its decision in this proceeding. The Applicants explained that certain documents and information called for by the requests contain highly proprietary and competitively sensitive material, and that additional steps would have to be taken to maintain the confidentiality of such items.

If you have any questions concerning this meeting or this ex parte notice, please do not hesitate to contact me.

Sincerely yours,
